

Prestige Properties Group LLC

Prestige Properties Group LLC is a Great Neighbor

As do the neighboring homeowners of our rental properties, we also want to see home values rise and communities stabilize where we invest. Our property managers seek responsible residents who take care of their homes and contribute to a positive community atmosphere. We encourage neighbors to contact us directly if they notice activity that falls contrary to community standards. We make certain that issues are heard and responded to promptly.

Unlike other “Rent it and forget it” landlords, our rental check-up program ensures that we heed any problems before they manifest, including personal visits to every home a minimum of 2 times per year. We require residents to keep the home and yard clean and free of junk and refuse, and be compliant with local noise regulations and any other city and/or HOA ordinances. We require residents to maintain their stated number of occupants and vehicles. We take action if residents do not meet these requirements.

In our commitment to be great neighbors, we have developed long-term relationships with city rental inspection programs and HOAs. We achieve personal satisfaction when we invest in communities, renovate our homes, and create attractive single family rental homes for those who need an alternative to buying. In the process, more jobs are created and local housing markets recover.

The community is about all of us. In case any of our residents are indulging in activities that are not in keeping with HOA or city ordinance, or state or federal law, do let us know by submitting the information by way of the contact form below.
